

*Contents*

A Deep Learning-Based Framework For Precision Agriculture To Monitor Crop Health, Detect Diseases, And Predict Yield Using Drone And Satellite Image Analysis	01-15
Leveraging Blockchain Technology To Strengthen Pharmaceutical Supply Chain	16-18
Scramble Crossings At Signalized Intersections: A Systematic Review Of Safety, Efficiency, And Behavioural Impacts	19-32
Vehicle Intention Detection In Long-Tail Scenarios Via Spatial-Temporal Fusion Of C2F_EMA And LSTM	33-41
